# THE FIRE IS LIT.

While living in the South of France, Petersen found himself wrapped in a blanket of nostalgia, comforted by deeply cherished memories, yet yearning to be laughing with friends again around a campfire.

Inspired to develop a signature fragrance, his goal was to capture a moment in time, with a specific scent. With the help of some exceptionally talented master perfumers in the French Riviera hillside city of Grasse, and after an

extensive sample development process, the scent Petersen had envisioned was created.

The final result? Campfire Kiss. A richly scented luxury candle reminiscent of those peaceful places in Northern Ontario and other locales like it, where we seek to escape the chaos of our lives, reconnect with nature and recharge.

**Campfire Kiss – Where the woodlands meet wildfire.**

“What is to give light  
must endure burning.”

- VIKTOR FRANKL  
neurologist, psychologist, philosopher

A photograph of a campfire burning in a dark forest at night. The fire is contained within a stone fire pit and is made of several logs. The flames are bright orange and yellow, contrasting with the dark surroundings. In the foreground, a large, dark log lies horizontally. To the right, a large, dark, cylindrical object, possibly a log or a piece of wood, is partially visible. The background is filled with dark, dense foliage and trees, creating a sense of being deep in a forest.

**WOODLANDS MEET WOODFIRE.**

Rich with the scents of mahogany, birch and smoke, and blended with notes of musk. Moss and cedar lend finishing touches.

“My girlfriend has been searching forever for a woody-smokey candle! I told her I had hit the jackpot! Today is her birthday and as a gift to her I lit your candle at her house while I put her kids to bed so she and her hubby could have a nice dinner out! When she got home and smelled the amazing fragrance your candle had give she was in heaven!”

“It’s gorgeous and smells wonderful (very nostalgic scent for me). When I go camping I brew a fruit tea over the fire and add whisky to it. That, mixed with the surrounding nature, reminds me of your candle.”
